

Greetings,

A new month has arrived and hopefully many of you have recuperated from Fiesta! Our training is quickly coming up May 4th with Crime Scene Cleaners (CSC) who is the host to teach OSHA standard class of Blood Borne Pathogens. Students will receive 2 hours of TCLEOSE Credit. Hope to see many of you there!

I spoke to TCPA Jon Matherne, he stated that the executive board approved holding the TCPA mid-winter conference in Kerrville,Tx at the Y.O. Resort. I'm excited that STCPA has agreed to assist us. Laura "Kat" Tobias our 1st VP is working with other P.D.'s in gathering training for us.

I want to thank Linda Furlow for obtaining Ft. Sam Houston for our April meeting, we had a good turnout and the food was excellent. Our May meeting location will be announced soon.

Anyone having ideas for training please contact "Kat" so she can inquire about it. At this time I will cut the report short and wish all of you a safe month. Be careful out there!!

Sincerely, Gilbert C. De La Portilla
AACPA/ President

THE AMERICAN FLAG COMES SECOND

By [Michelle Malkin](#) · [March 29, 2006 01:15 AM](#)

You will not see this heart-stopping photo on the front page of the NY Times or on the lead story of the major news networks, but you should.

03/28 : Student protest in Whittier area:
Students from Pioneer, California and
Whittier high schools walked out of classes
to protest the proposed federal immigration
bill March 27, 2006.

The protestors put up the Mexican flag over
the American flag flying upside down at
Montebello High.

Meanwhile: Mexico Cheers Passage of Immigration Bill

Next step: Welcome to reconquista.

This disgraceful stunt should be the final nail in the coffin of any guest-worker/amnesty plan on the table in Washington. The image of the American flag **subsumed** to another and turned upside down on American soil is already spreading on Internet forums and via e-mail. Pass this along to every American citizen in your address books and to every representative in the state and federal government. If you choose to remain uninvolved do not be amazed when you no longer have a nation to call your own nor anything you have worked for left since it will be "redistributed" to the activists while you are so peacefully staying out of the "fray". Check history, it is full of nations/empires that disappeared when its citizens no longer held their core beliefs and values. One person CAN make a difference. One plus one plus one plus one plus one plus one.....

The battle for secure borders and immigration laws that actually mean something, however, hasn't even begun.
