VISITORS ARE ALWAYS WELCOME

DRIVER AWARENESS TIP - BE AWARE - This is NO JOKE!

Please take the time to watch this 3 1/2 minute video produced by the Broward County, FL Sheriff's Office.

Identity thieves are at it again, this time targeting people at gas stations.

Most of us never leave the proximity of our vehicle while at the pump, but don't realize how vulnerable we are while focused on pumping gas.

With all your doors normally unlocked when using the electric door locks most of have on our cars, we become easy victims for the crime you are about to view.

The footage of the actual crime is shocking in how easy it is to pull off. Please take heed and pass it along

GEICO FRAUD ALERT

Fraud and identity theft are on the rise, impacting thousands of people every year.

GEICO is committed to protecting you and your personal information.

Fraud schemes can take place over the phone, on the Internet, and through the mail.

Criminals will use a number of techniques to gain access to your private information such as your social security, bank account, or credit card numbers. Examples:

- An urgent message requesting updated information or your account will be closed.
- An offer to receive free service upon providing personal information.
- A prize notification with a redemption process that involves you providing access to your banking information.

These contacts may appear to be from a legitimate company due to copied logos and letterheads.

Fraudulent email contacts may even include links to web sites that look very much like the actual site.

This practice is known as phishing.

UNIVERSITY POLICE CAMPUS WATCH REPORT

February 2007 - <http://www.uthscsa.edu/utpolice/Newsletters/NewsletterFeb2007.pdf>

March 2007 - <http://www.uthscsa.edu/utpolice/Newsletters/NewsletterMar2007.pdf>

BUMP KEYS

<http://www.peiferlock.com/alert-bump-keys.htm>

The vulnerability is explained on many websites. Inside Edition used the following:

<http://www.youtube.com/watch?v=bgxly2rv8cE&mode=related&search> when the website comes up, click on [Bump Key HOWTO](#).

Then click on the video to see how anyone can make and use a bump key!!

http://en.wikipedia.org/wiki/Lock_bumping provides a complete information package.

They report: "The skill level required to bump a lock is minuscule compared to other lock picking techniques; bumping is a feasible method for compromising locks by just about anyone." Bump keys can also be ordered on many websites.
